

We have learnt that some seeds have to be single and by themselves to be able to grow, and some seeds can be planted next to each other really close and still be able to grow successfully.

Some of our highlights are painting the garden beds and another is having some of our friends in the envirokids with us like Daisy, Joel, Kirsten, Liam and more. We enjoyed planting the seeds in the little planters and also we enjoyed putting compost and stuff that will break up the clumpy dirt.

We would like to learn about growing a herb garden, and how much water they need and how much sun or no sun, or if it's an inside or outside herb. Also we would like to learn about growing heaps of different colourful flowers.

The best thing about being entered into the Tui Garden Challenge Competition is that we have the chance to win heaps of vouchers and Tui garden stuff to help our garden beds.
